## SUMMARY

---

Passionate full-stack developer with 1-2 years of experience specializing in JavaScript and Python. Skilled in building scalable web applications, with a focus on ML integration. Proficient in agile methodologies and committed to writing clean, efficient, and maintainable code.

## EDUCATION

---

**Bachelor of Software Engineering**, National University of Computer and Emerging Sciences 2022 – Present

## SKILLS

---

Programming	JavaScript, Python, HTML, CSS
Front-End	React, Redux, HTML5, CSS3, Responsive UI
Back-End	Flask, Node.js, Express.js, REST APIs
Databases	MongoDB, PostgreSQL, SQL Server
Tools	Git, FFmpeg

## PROJECTS

---

### Project Name

Description: A brief overview of the project, highlighting the use of Flask, React, and MongoDB.

Contributions:

- Implemented a robust authentication system using JWT and OAuth.
- Developed dynamic routing and rendered pages using React and Redux.
- Integrated MongoDB for data storage and implemented complex queries.

### Project Name

Description: Overview mentioning the use of Node.js and real-time communication.

Contributions:

- Utilized WebSockets for real-time data synchronization.
- Implemented a video transformation API using FFmpeg.
- Ensured a secure and scalable deployment on AWS.

## CERTIFICATIONS

---

**PMP Certification**
